

AKALESH TANWAR

React.js Developer | 4+ Years Experience

akaleshtanwer5014@gmail.com | +91-7223863868 | linkedin.com/in/akaleshTanwer | github.com/atanwer | atanwer.github.io

PROFESSIONAL SUMMARY

Front-end focused Full Stack Developer with 4+ years of experience building fast, scalable, and accessible web and mobile interfaces using React.js, Next.js, React Native, Redux Toolkit, and TypeScript. Specializes in component architecture, performance optimization, and pixel-perfect, WCAG-compliant UI delivery for production clients across Australia and India. Skilled at translating designs and business requirements into reusable component libraries, cutting frontend delivery time and production bugs by ~20-30%. Comfortable owning the frontend of the stack end-to-end — from architecture through Vercel/AWS deployment — while integrating cleanly with backend REST APIs.

TECHNICAL SKILLS

Frontend: React.js, Next.js, React Native, Redux Toolkit, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML5, CSS3, Responsive & Accessible (WCAG 2.1 AA) UI

State & Data: REST API Integration, JWT-based Auth Flows, Component-Driven Architecture, Performance Optimization

Backend (working knowledge): Node.js, Express.js, Strapi CMS, PostgreSQL, MongoDB, Prisma, Sequelize

Cloud & DevOps: Vercel, AWS (EC2, Cognito), Render, Docker, GitHub Actions CI/CD

Tools & AI: Git, GitHub, Postman, Jira, Trello, VS Code, Cursor, GitHub Copilot, Claude, V0, Agentic AI

PROFESSIONAL EXPERIENCE

Software Engineer — *TechyMonks*

May 2025 – Present

- Reduced production issues by ~20% across web applications by implementing targeted frontend fixes and strengthening application stability.
- Improved application performance by optimizing component rendering, reducing unnecessary API requests, and enhancing data-fetching workflows for a smoother user experience.
- Built and maintained reusable frontend components using React.js and Next.js, improving code maintainability and development efficiency across projects.
- Collaborated with backend engineers, product managers, and stakeholders to convert business requirements into scalable UI solutions while maintaining sprint delivery timelines.
- Facilitated client requirement discussions and technical planning sessions, helping define UI/UX scope and accelerate feature delivery.

Full Stack Developer — *Alcyone Technologies Pvt. Ltd.*

Nov 2024 – Feb 2025

- Resolved 10+ critical runtime issues in a live React Native application within the first 4 weeks, restoring stability for hundreds of active users.
- Strengthened frontend API integration reliability by standardizing response handling across 6+ modules, eliminating data inconsistency errors.
- Coordinated with backend teams to streamline feature delivery, reducing integration delays by ~15% during release cycles.

React Engineer — *Gravity Engineering Services Pvt. Ltd.*

Jul 2024 – Aug 2024

- Built a high-performance company website in Next.js + Tailwind CSS, achieving a Google Lighthouse performance score of 90+ with SEO-optimized page structure.
- Integrated Strapi CMS into the frontend, reducing content update turnaround from 3+ hours to under 10 minutes by empowering non-technical staff.
- Refined UI responsiveness across 5+ device breakpoints, raising mobile accessibility compliance to meet WCAG 2.1 AA standards.

Full Stack Developer — *Aurasoft Digitech Pvt. Ltd.*

Jan 2022 – May 2024

- Architected and shipped 8+ full-stack applications with React.js front ends, supporting multiple concurrent production clients.
- Accelerated frontend delivery by 30% by establishing a reusable component library and optimizing Redux Toolkit state flows, cutting duplicated code across 3 products.

- Mentored 3 junior developers on React best practices through structured code reviews, lifting team code quality scores and halving average review-to-merge cycle time.
- Consumed and integrated 20+ secure REST APIs (JWT/RBAC) into React front ends across 3 enterprise systems with zero unauthorized-access incidents.
- Deployed and maintained frontend builds across Vercel, AWS (EC2, Cognito), and VPS — maintaining 99.9% uptime across all production environments.

Frontend Developer Intern — *Aurasoft Digitech Pvt. Ltd.*

Sep 2021 – Dec 2021

- Built 10+ responsive UI components using HTML, CSS, Bootstrap, and JavaScript across 3 internal application modules during a 4-month internship.
- Resolved 15+ cross-browser compatibility bugs, raising visual consistency scores across internal applications.

KEY PROJECTS

Buybox Cartel — Real Estate Investment Platform

- Built the React front end for lead and property workflows spanning 500+ properties, with UI automation reducing manual ops by ~35%.
- Implemented role-aware UI for a secure multi-user system with 4 distinct access tiers, achieving zero privilege-escalation incidents post-launch.

MECOC — Event Management System

- Shipped a multi-role event platform (Admin, Speakers, Exhibitors, Delegates) with dynamic role-based routing in React — completed on time with zero post-launch critical bugs.

Empowerwealth — Real Estate Platform

- Constructed a reusable component library that accelerated feature development by ~25% and unified UX across 3 product modules.

Other: Ubragga (React Native gaming), Qahwah (e-commerce), Spade Telecom (info web app), Arcsine (analytics dashboard), Quick Support (fintech)

EDUCATION

MCA — Maharaja Ranjit Singh College, Indore (2019–2021)

BSc Computer Science — Maa Narmada Degree College, Dhamnod (2016–2019)

CERTIFICATIONS

Responsive Web Design — freeCodeCamp

JavaScript Algorithms & Data Structures — freeCodeCamp
