

AKALESH TANWAR

Frontend Developer — React.js / Next.js / React Native — 4+ Years Experience

akaleshtanwer5014@gmail.com | +91-7223863868 | linkedin.com/in/akaleshtanwer | github.com/atanwer | atanwer.github.io

PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience designing and building high-performance, responsive user interfaces using React.js, Next.js, React Native, TypeScript, and Tailwind CSS. Skilled in component architecture, reusable UI libraries, and efficient state management with Redux Toolkit, consistently improving code maintainability and development speed across multiple products. Proven track record optimizing applications for speed and accessibility — achieving a Google Lighthouse score of 90+ and WCAG 2.1 AA compliance — and shipping pixel-accurate, cross-device responsive interfaces. Comfortable integrating frontend applications with backend APIs and CMS platforms, collaborating closely with designers, product managers, and backend engineers, and mentoring junior developers through structured code reviews in fast-paced Agile teams for international clients across Australia and India.

TECHNICAL SKILLS

Frontend	React.js, Next.js, React Native, Redux Toolkit, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
UI & Performance	Responsive & cross-device design, WCAG 2.1 AA accessibility, Core Web Vitals / Lighthouse optimization, SEO-friendly page structure
Testing	Jest, Vitest, Cypress — hands-on experience writing and running component and end-to-end tests
API Integration	RESTful API consumption, Node.js/Express.js backends, JWT authentication, Strapi CMS integration
Databases	PostgreSQL, MySQL, MongoDB, Supabase
Cloud & DevOps	AWS (EC2, Cognito, S3), Docker, GitHub Actions, CI/CD Pipelines, Vercel, Render, Heroku, VPS
Tools & AI	Git, GitHub, Postman, Jira, Trello, VS Code, Cursor, GitHub Copilot, Claude, V0, Agentic AI, Python, Google Colab, LangChain, Tavily

PROFESSIONAL EXPERIENCE

Software Engineer

1 May 2025 – 30 Jul 2026

TechyMonks

- Optimized component rendering and data-fetching workflows, cutting unnecessary API requests and delivering a smoother, higher-performing user experience.
- Built and maintained reusable, well-documented frontend components in React.js and Next.js, improving maintainability across projects.
- Collaborated cross-functionally with backend engineers, product managers, and stakeholders to convert business and data requirements into scalable technical solutions, maintaining consistent sprint delivery.
- Led client requirement discussions and technical planning sessions, shaping project scope and accelerating feature delivery.

Full Stack Developer

13 Nov 2024 – 28 Feb 2025

Alcyone Technologies Pvt. Ltd.

- Resolved 10+ critical runtime issues in a live React Native application within 4 weeks, restoring stability for hundreds of active users.
- Collaborated with cross-functional teams to streamline feature delivery, reducing integration delays by ~15% during release cycles.

React Engineer

5 Jul 2024 – 30 Aug 2024

Gravity Engineering Services Pvt. Ltd.

- Built a high-performance company website in Next.js + Tailwind CSS, achieving a Google Lighthouse score of 90+ with SEO-optimized page structure.
- Integrated Strapi CMS, cutting content update turnaround from 3+ hours to under 10 minutes for non-technical staff.
- Refined UI responsiveness across 5+ device breakpoints, raising mobile accessibility compliance to WCAG 2.1 AA standards.

Full Stack Developer

1 Jan 2022 – 6 May 2024

Aurasoft Digitech Pvt. Ltd.

- Contributed to the frontend architecture of 8+ full-stack applications using React.js and TypeScript for multiple concurrent production clients.
- Integrated frontend applications with 20+ secure REST APIs featuring JWT authentication and RBAC across 3 enterprise systems.
- Accelerated frontend delivery by 30% by building a reusable component library and optimizing Redux Toolkit state flows, cutting duplicated code across 3 products.
- Mentored 3 junior developers through structured code reviews, raising team code quality and halving average review-to-merge cycle time.
- Automated CI/CD pipelines via GitHub Actions and Docker, reducing deployment time by ~40% and eliminating manual release errors.
- Managed cloud deployments across AWS (EC2, Cognito, S3), Vercel, Render, and VPS, maintaining 99.9% uptime across all production environments.

Frontend Developer Intern

22 Sep 2021 – 31 Dec 2021

Aurasoft Digitech Pvt. Ltd.

- Built 10+ responsive UI components using HTML, CSS, Bootstrap, and JavaScript across 3 internal application modules during a 4-month internship.
- Resolved 15+ cross-browser compatibility bugs, improving visual consistency across internal applications.

KEY PROJECTS

Empowerwealth — Real Estate Platform — Built a reusable component library that accelerated feature development by ~25% and unified UX across 3 product modules; contributed to architecture decisions and deployment strategy, achieving zero-downtime releases.

MECOC — Event Management System — Built the frontend for a multi-role platform (Admin, Speakers, Exhibitors, Delegates) with dynamic role-based routing and real-time session views, delivered on time with zero post-launch critical bugs.

Other: Ubragga (React Native gaming), Qahwah (e-commerce), Spade Telecom (info web app), Arcsine (analytics dashboard), Quick Support (fintech)

EDUCATION

MCA

Maharaja Ranjit Singh College, Indore · 2019–2021

BSc Computer Science

Maa Narmada Degree College, Dhamnod · 2016–2019

CERTIFICATIONS

- Responsive Web Design — freeCodeCamp
- JavaScript Algorithms & Data Structures — freeCodeCamp
